Isolator Synergy EnCompass Clamp

The Latest Addition to AtriCure's Robust Portfolio of Bipolar Radiofrequency Ablation Devices

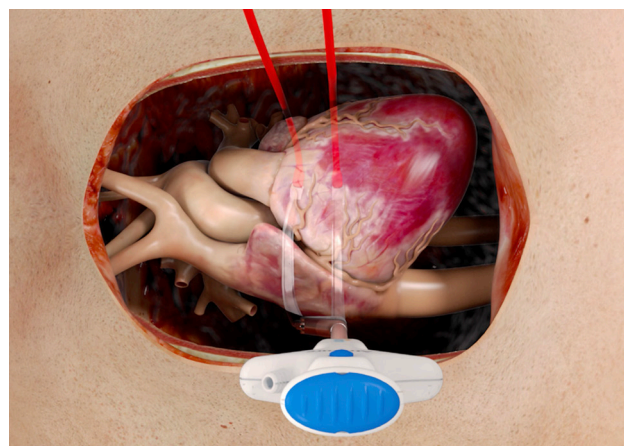

- Designed to make surgical ablation easy to perform, without compromising the principles that make a good ablation: a transmural and contiguous lesion.
- Utilizes the Synergy algorithm and energy delivery system, allowing for customized energy delivery during each ablation.
- Includes a Glidepath™ Magnetic Guide (GPM100), which is designed to safely guide the clamp through the transverse and oblique sinuses behind the heart.

Designed To Make Ablations More Efficient

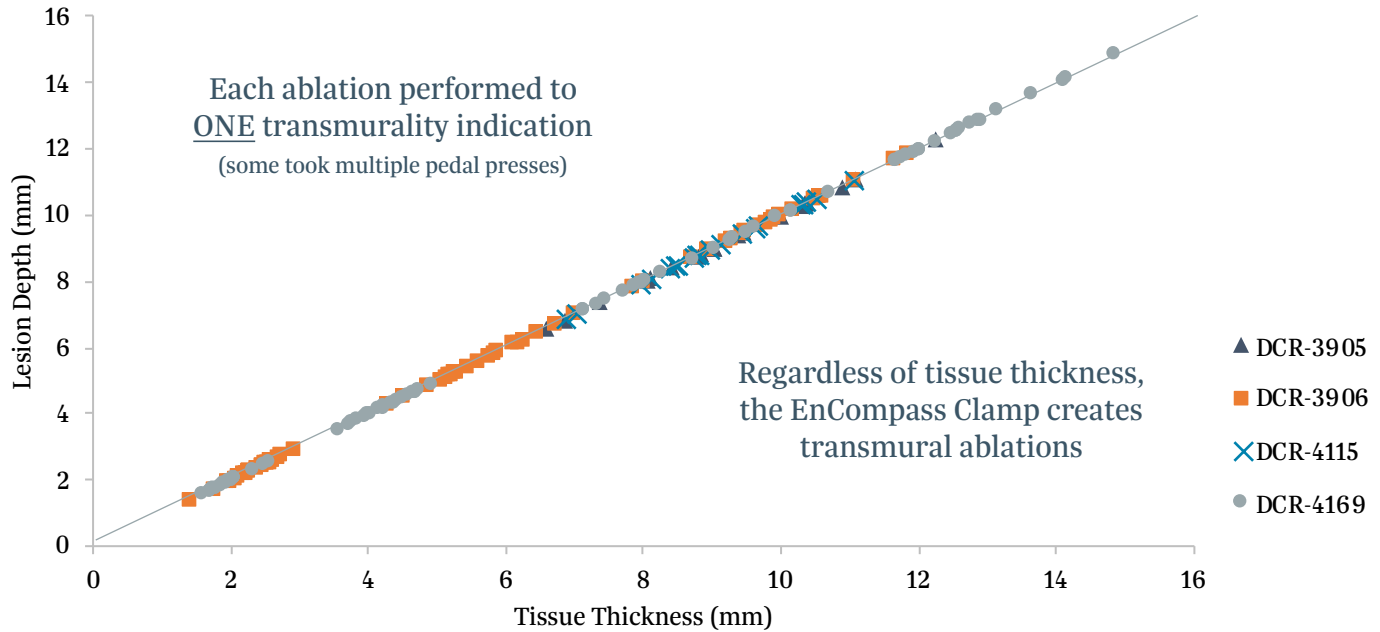

Minimal dissection for easy access

Proven and reliable Synergy technology
