

## United Kingdom Modern Slavery Act Statement

Section 54, Part 6, of the United Kingdom Modern Slavery Act of 2016 requires certain organizations to provide public disclosures which explain the steps which have been taken to confirm that slavery and human trafficking are not present in their supply chain. This disclosure is intended to provide AtriCure customers with information that will allow them to make more informed decisions about the goods they are purchasing.

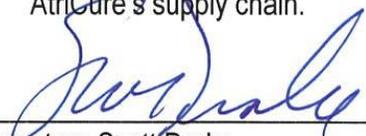

AtriCure makes a concentrated effort to ensure that our business is conducted in an ethical manner, including dealing fairly in our business ventures, maintaining a safe and harassment free work place, ensuring that our efforts are conducted in an environmentally conscious manner, and making sure that we are complying with applicable law. In addition, AtriCure is committed to taking all steps which are necessary to ensure that all components of our supply chain are in line with our company values, our company Mission, and our Business Partner Conduct Standards.

AtriCure's Business Partner Conduct Standards are designed to require those with whom AtriCure does business to share in our commitment to human rights and equal opportunity in the workplace. The Business Partner Conduct Standards specifically note our expectation that AtriCure's business partners comply with all applicable laws relating, but not limited to, wages, working hours, working conditions, child labor, forced labor, and human trafficking.

The functionality of AtriCure's supply chain is reliant upon functional collaboration between departments for the sourcing of all components and products present in our portfolio. Proper communication helps to ensure that all products are delivered safely, reliably, and in a manner consistent with the high standards we expect from our suppliers, both domestically in the United States, and around the world.

AtriCure is taking the following additional measures to ensure that slavery and human trafficking are not present in our supply chain:

- AtriCure has revised its supplier contracts to include language which requires suppliers to certify their compliance with AtriCure's Business Partner Conduct Standards.
- AtriCure has put a process in motion to draft and publish our official Statement on Human Rights, which will evidence AtriCure's commitment to ensuring that AtriCure's business is conducted in an ethical, legal, and compassionate manner.
- AtriCure has put a process in motion to draft and publish our official Human Trafficking Policy, which will evidence AtriCure's dedication to doing our part to ensure that there are no traces of human trafficking in AtriCure's supply chain.
